Scope of work:

Innu Inuit Redpath Limited Partnership (IIR) is mining contractor that operates projects in 2 underground mines located on the east coast of Labrador, approximately 350 km north of Goose Bay. The work consists of building/ installing mine infrastructure such as high pressure doors, regulator walls, wash bays, maintenance bays, fuel bay, Electrical Substations etc.

Job Summary:

Under the supervision of the Lead Journeyperson Electrician and the Journey person Electrical Supervisor, the primary role of a Journeyperson electrician is to install, wire, maintain & perform preventive maintenance and repairs to electric equipment on the surface and underground areas. The incumbent will also be required to work with PLC and communication systems.

Duties and Responsibilities:

- Must be able to comprehend written and verbal instructions as required to perform their duties in a safe and efficient manner
- Must be capable of reading & understanding electrical drawings
- Must have direct experience installing and maintaining:
 - Troubleshoot and repair ventilation fans and mine pumps
 - Electric/hydraulic mining equipment
 - Phone and mine communication systems
 - PLC and other advanced or automation systems
- High Voltage (600 V to 15,000 V) and Low Voltage Power and control systems
- Underground sub-stations
- Fabricate when required electrical panels and other necessary Installation of electrical cables
- Perform safely and timely emergency repairs to equipment
- Must be able to communicate written and verbal instructions to subordinates
- Must have skills to help train new employees and apprentices
- The duties and responsibilities listed above are representative of the nature and level of work assigned and are not necessarily all-inclusive

Required Qualifications:

- Journeyperon Red Seal Electrician certificate of competence for Industrial or Construction and Maintenance
- Minimum five years experience in an underground mining environment
- Ontario Hard Rock Underground Service Type Common Core (or other provincial equivalents)

Required Skills

- Ability to multi-task and work safely and effectively
- Ability to work efficiently as part of a team as well as independently

Health and Safety:

- Follow Company and Client health and safety standards and report all unsafe acts or conditions to the supervisor
- Responsible for ensuring proper use and maintenance of personal protective equipment
- Work in accordance with local legislation

Pre-employment requirement:

- Drug test
- Medical
- Criminal background check

IIR recognizes the Impact & Benefits Agreements with the Innu Nation & the Nunatsiavut Government in which Innu & Inuit workers have first preference for employment at Voisey's Bay Site. It also recognizes a commitment to give qualified workers from Labrador priority for employment opportunities.

IIR is an equal-opportunity employer.
